

**REMARKS**

Entry of the above amendments to the claims before examination of the application is respectfully requested. Amendments to the Specification have been made to put the application in the proper form for US practice; no new matter has been added. Support for the amendment to claim 13 can be found in the published application text at page 18, lines 7-8.

Attached is a replacement drawing sheet showing amended Figure 7. The amendments made were the addition of sequence identification numbers after each sequence, which numbers correspond to the Sequence Listing filed concurrently herewith. As the amendment has not made any substantive change to the drawing figure a marked-up copy is not provided.

In the event there are any questions concerning this Amendment, or the application in general, the Examiner is respectfully urged to telephone the undersigned so that prosecution of the application may be expedited.

Respectfully Submitted,

December 21, 2005
